Reflex Hot Water Storage Tanks

ErP ready to the max

Convenience and energy efficiency

Reflex hot water tanks ensure lasting comfort – convenient, efficient and energy-saving. Attributes already ensured during manufacturing: Product quality and superior workmanship have top priority in the factory and during the procurement of raw materials.

As a leading brand manufacturer, we offer a product range of heat storage systems meeting the latest standards – systematic solutions for perfect system design.

Storatherm Aqua Load

Drinking water tank with service flange

Energieeffizienzklasse
Energy efficiency class
C

- For the heating of hot water in storage/charging systems
- Enamelling in accordance with DIN 4753 T3
- With magnesium anode, thermometer and adjustable feet

- Perm. excess operating pressure: 10 bar
- Perm. operating temperature: 95 °C

Storatherm Aqua Load-Types

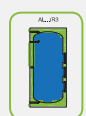

AL .../R
Hot water storage tank
with one inspection
flange

Insulation
up to 500 Liter:
rECOflex insulation
system with foil cover
from 750 Liter:
100mm removable
fleece insulation with
foil cover

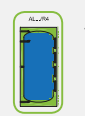

AL .../R2
Hot water storage tank
with two inspection
flanges

Insulation
120mm removable
fleece insulation
with foil cover

AL .../R3
Hot water storage tank
with three inspection
flanges

Insulation
120mm removable
fleece insulation
with foil cover

AL .../R4
Hot water storage tank
with four
inspection flanges

Insulation
120mm removable
fleece insulation
with foil cover
